

To: Rachel Green, LAUC President
From: Cynthia Johnson, LAUC Representative to DOC

LAUC Assembly Report, March 15, 2022

The Direction and Oversight Committee is charged to carry out the vision, strategies, priorities, and policies established by the Council of University Librarians (CoUL). DOC plays a key role in implementing this by overseeing the UCLAS groups. Each campus, as well as CDL and LAUC, has a representative on DOC. DOC meets every other Tuesday for 50 minutes.

The following are the major topics of discussion in DOC

- Transitioning SILS from implementation to maintenance, which is called the SILS governance structure, is now part of the UC Libraries Advisory Structure (UCLAS), and now reports to DOC.
 - An example of the type of discussion specific to this change in SILS:
 - How will DOC manage issues that cannot be resolved in a team and may need discussion between the UCs and Ex Libris?
- Related to the SILS governance structure, DOC is discussing and working through the growth in Leadership Teams that report to DOC and expectations for working with Leadership Teams.
- DOC's liaison relationships with the groups which report to DOC
 - Examples of these discussions include discussions about DOC's expectations of a DOC liaison and whether the workload is evenly distributed across DOC members.
- Continuing impact of the pandemic, even as classes have returned to in-person.
 - Examples of these conversations include high campuses have hybrid work schedules in their libraries and how campuses are managing these schedules and the policies around hybrid work.
