

Foreword to the Second Edition

This second edition includes a chapter on the Santa Cruz Division; now all of the nine LAUC divisions as well as the Systemwide association are represented. Except for the new chapter, the only changes are a few corrections of errors and completely revised indexes.

I would like to thank the authors of the Santa Cruz chapter (Marion Taylor, Margaret Gordon, and Judy Steen) for their perseverance in the completion of the task, making it possible for the new and complete edition to be issued. I would also like to thank the members of the LAUC Executive Board for their encouragement and support. Once again, special thanks and appreciation go to Jeff Selth, who served as literary editor as well as general advisor for this edition.
