Original Abstract as Submitted

In my presentation (the second half of the hour), I described the UCI Libraries move to a discovery platform, ExLibris Primo VE. I reviewed and assessed the statistics provided by Alma Analytics and our local ILL team for the first year of implementation. I also synthesized the implementation process, which involved discussion with various UC's and compared our discovery platforms. I discussed the various groups I was involved with that were charged with evaluating the discovery platform (best practices and their outcomes), and how changes were made to the institutional research strategy (instruction and research skills). After the presentation I was able to connect with other librarians who had similar outcomes.

ACCOMPLISHMENTS AND EVALUATION

Please respond to the following as appropriate:
- Describe what was achieved during the time period of the grant.
- What aspects were completed as proposed? If your study could not be completed as proposed, explain how your plans were altered.
- Did the project accomplish what it intended? Did it make a difference?
- Include any relevant quantitative data, if applicable (e.g. How many individuals have benefited from this project and in what way? You may include various output measures such as circulation/reference transactions, program attendance, survey responses, etc.).
- Include any anecdotes, if applicable.
- What would you do differently next time, if anything?

Additional grant funding for travel was wonderful to have with the twist that regular funding wasn't needed due to the pandemic eliminating travel costs.

Is your project completed?

◉ Yes

◯ No

If No, what is needed to complete the project? More time, funds?

FINANCIAL STATEMENT
Please explain how the funds received were spent. Attach your original budget and indicate how well your estimates matched with actual expenditures. Receipts are not necessary.

SHARING YOUR PRODUCT/RESULTS
What are your plans for disseminating the results of your work? If it will be a webpage or product, or published article or book, when will it be available to the public? Include citations/URLs if known. Remember that all final products must acknowledge receipt of funds from LAUC.
