

Midyear Report

LAUC Committee on Professional Governance (CPG)

Matthew Conner

Chair

The CPG has been working to execute its special charges to complete a document explaining LAUC's advisory role within the University of California Library Advisory Structure (UCLAS) and to present its findings at LAUC's Annual Assembly. During its discussions of the draft begun by last year's committee, the CPG determined to circulate a spreadsheet summarizing review procedures at different campuses, which related to issues of standardization across campuses that had been discussed. The spreadsheet was circulated to the campuses for feedback, but received little feedback and no reason for pursuing the subject further.

The CPG presented its findings on the special charge at the LAUC Assembly on March 18, 2024. The committee will now complete its written document. The CPG is also embarking on a new special charge to compare the evolution of LAUC committee names with counterparts throughout the university system to ensure that LAUC remains aligned current in this respect.
