Session Description:

This session will focus on challenges and solutions to implementing or migrating to a new digital asset management system (DAMS). Panelists will each briefly share their lessons learned with recently transitioning from legacy systems to new platforms or starting from scratch to launch a new system. They will highlight different considerations related to solutions such as Nuxeo and Islandora and publishing to platforms including Calisphere and Omeka. They will discuss how they approached technical and staff resourcing, budgeting, metadata and file migration, and integrating the DAMS with other platforms. The talks will be followed by an in-depth and moderated Q&A session with the audience and panelists. The goal is to have a candid, participatory discussion that frankly addresses various workflow challenges and solutions, system benefits and drawbacks -- and ultimately encourages archival professionals to take the leap to new systems that can better serve their needs.

ACCOMPLISHMENTS AND EVALUATION

Describe what was achieved during the time period of the grant:

I attended and presented at the 2017 Society of California Archivists Annual General Meeting in Pasadena, California, April 27-29. The session at which I presented was well attended and the panel was well received. Following the conference, I, along with the other panel presenters, submitted our presentations and notes to the SCA Program Committee for distribution and preservation.

IS YOUR PROJECT COMPLETED? Yes

FINANCIAL STATEMENT

The grant supported my attendance and presentation at the conference (including hotel and registration fees).
