TITLE OF PROJECT:

Time Period of Grant: 2014/2015
Amount of Award Received: \$750.00

Original Abstract as Submitted:

The University of California, Davis Libraries have received grant funding from the IMLS for the project: Reinventing Cataloging: Models for the Future of Library Operations. (<http://www.lib.ucdavis.edu/bibflow/about/>). The project, named BIBFLOW, will develop a roadmap for migrating essential library work efforts (workflows) to a BIBFRAME/Linked Open Data (LOD) ecosystem. During year one of the project, we have identified various library cataloging workflows that BIBFLOW will test by creating systems to allow catalogers to perform this work using BIBFLOW/LOD native tools and data stores. This presentation will highlight cataloging workflows we have analyzed and speculate how BIBFLOW/LOD may affect the library's future technical services operations, especially cataloging and metadata creation.

 - Include any anecdotes, if applicable.

Yes. It was accomplished as planned.

- What would you do differently next time, if anything?

No.

- What advice do you have for others applying for LAUC research grants?

No.

II. IS YOUR PROJECT COMPLETED? Yes X No

If No, what is needed to complete the project? Is more time needed? Or more funds?
