Candidate Statement, LAUC Vice President/President Elect
Mary-Michelle Moore, LAUC-SB

Candidate Statement

Thank you for considering my candidacy for LAUC Vice President/President-Elect. I'm excited to be nominated and would welcome the opportunity to serve LAUC in this capacity. I'm relatively new to LAUC service but have several years' experience serving in leadership and committee roles on CARL and ACRL committees working to connect librarians across different libraries and campuses.

As a member of the Research and Professional Development Committee, I have seen the myriad of ways that LAUC can help members accomplish their research goals, but I think we have room to improve how we help our members find this information. As an instruction librarian, I'm particularly interested in wayfinding and clarity. I believe that this position would provide me with the opportunity to help my colleagues by continuing the efforts Rachel Green started to streamline the feedback process and continue to make the website more navigable. I also believe that this committee can continue to do more to share and showcase the research activities of our colleagues to create a vibrant shared community.

In my second year, as President of LAUC, I'd like to continue that trend and encourage new and new-to-UC librarians to become involved in statewide service, even if it's just in making it easier to find information about board meetings and inviting them to attend if they are interested. I look forward to collaborating with my colleagues across campuses in the committees or small working and sharing groups to encourage connections for those who would like to seek it out.

In my third year, as Past-President, I hope that the work in my prior two years encouraging connection and clarity will make the process of seeking nominations for new officers easier. I understand that we are working in an ever-evolving environment and these goals may change, but I hope that regardless of the work I would be called on to complete, I can still keep at least a portion of these overarching goals in mind and make some progress.

Education

- MLIS, 2013, Rutgers University
- BS, Anthropology with a minor in Philosophy, 2005, UCLA

Professional Experience

- Teaching & Learning Librarian, UC Santa Barbara Library, 2018-Present
- Senior Assistant Librarian (Instructional Technologies Librarian, then Reference Services Coordinator), CSU Dominguez Hills Library, 2016-2018
- Instruction & Reference Librarian, CSU San Marcos, 2015-2016
