### **Statement of Interest:**

Franklin said, "We must all hang together or... we shall all hang separately." For librarians at the University of California, LAUC is the means by which "we all hang together" to discuss our current situation and to plan our future. It will play a vital role in providing opportunities for us to create and shape the changes that are coming our way.

During our present phase of change and re-organization, discussions at campus and statewide LAUC meetings will influence the roles of academic librarians, the collections and services we provide, and the spaces in which we work. LAUC has never been more important to us.

I'd be honored to have the opportunity to serve as Secretary as my contribution to LAUC's mission: providing systemwide leadership on library issues and supporting UC librarians in this time of retrenchment.
