

Michael Sholinbeck, Candidate for LAUC Secretary

Statement of Interest

My LAUC-Berkeley committee work has provided me a chance to help fellow UCB librarians in their professional activities. I appreciate the value to our profession that LAUC provides, particularly financial support for professional development. I now hope to further my supporting role at the statewide level of LAUC. My listening skills and attention to detail - excellent traits for a secretary - will serve LAUC well. If elected, I will provide accurate and speedy documentation of LAUC's activities, which would facilitate a better understanding among the membership of what LAUC does.
