#### **TITLE OF PROJECT:**

Time Period of Grant: Monday, November 07, 2016 – Wednesday, November 09, 2016

Amount of Award Received: \$600

Original Abstract as Submitted:

I am writing to request a presentation grant for two lightning round sessions to be given at the same conference: the Digital Library Federation Forum (DLF), which will be held in Milwaukee, held in Milwaukee, Wisconsin, 7-9 November 2016.

First, as the UCI representative on the Social Network Archival Context (SNAC) cooperative phase, I will give an update on the initiative (in its pilot phase) hosted by the National Archives and Records Administration (NARA). My part in the project has been to contribute to the cooperative understanding by describing UCI's technical workflows for collection holdings description and authority work, including how we, as archivists, submit authority headings to our local cataloging system. In the DLF snapshot session titled "Snap SNAC" I will give an account of how the cooperative members shaped interest groups to pursue high-priority tasks, including our progress on developing a standards and editorial policy as well as a prototype for the user interface.

Second, I will deliver a concise summary of an ethnographic study on teamwork that I conducted during work on the NEH-funded project called "Piloting Linked Open Data for Artists' Books." Although the project itself is mentioned for context, the focus of this talk is teamwork based with an emphasis on how cultural frameworks relate to technological projects.
